GENERAL INFORMATION

CANCELLATIONS, TRIAL SESSIONS AND CONTINUITY

All activities run on an annual basis (from September to June, both inclusive) and require a commitment to **continue for each term**, although fees are paid monthly. Withdrawals will only be accepted before the end of the term if justified on medical grounds.

Cancellations must be notified before the start of the following term in order to be effective.

They must be communicated by email using the school's app or to the address ebenlliure@benlleure.cat

They can also be processed via WhatsApp on 678 241 539.

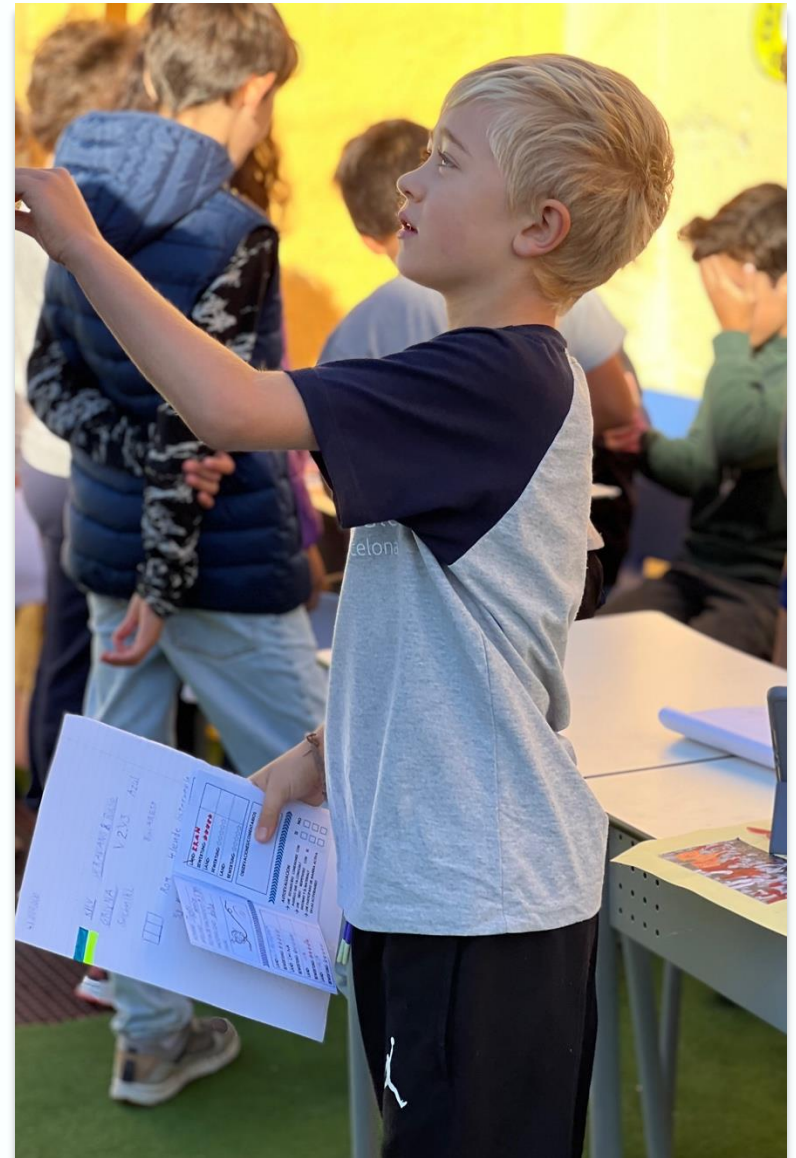

The **trial period** for activities consists of registering on the form and paying the monthly fee. If the trial is not satisfactory, withdrawal will be requested and will take effect the following month.

No refunds will be given except for justified medical reasons.

DATES

Activities will begin on **8 September at PEARSON (from EI5)** and on **1 October at IFNI (EI3-EI4)**, and in the second and third terms, on the same day that classes begin.

They will normally end on the same day as the last day of school. There will be no extracurricular activities on public holidays or on other days indicated by the school for any reason (school camps, school parties, etc.). These reasons do not justify a reduction in the fee.

GENERAL INFORMATION

GROUPS

Minimum: Each activity has a minimum number of students required to be able to form a group, if the minimum is not reached there are two options:

- 1- Cancel the group, it will remain on the waiting list until new registrations are received that allow the group to be created.
- 2- To agree a price adjustment with the interested families in order to be able to start the activity (only for those activities that make sense to be done with small groups).

Maximum: Each activity has a maximum number of students that we cannot exceed. If this maximum is reached, we will close the group and new registrations will be put on the waiting list. The criterion will be the date of enrolment.

FOLLOW-UP OF ACTIVITIES

We will periodically report on the evolution of the course via email. In addition, families who would like more personalised information about the progress of their children or would like to discuss any concerns, contributions, discomfort, etc..., may request a termly meeting via email ebenlliure@benlleure.cat or via Whatsapp at 678 241 539.

In the same way, if we detect this need, we will contact the pupil's family directly.

SPORADIC ATTENDANCE

New this year, students from any course will be able to attend **Improshow, Dance, Football and Multisport** activities on a sporadic basis, upon payment of **€12 via Bizum** and prior notification to Eduard on 678 241 539.

OWL EMOCIONS	MIDDAY	MONDAYS, WEDNESDAYS or THURSDAYS	E15 – 6K	44€

With this activity we will help children in the process of **acquiring and developing emotional competences** such as:

- Acquisition of a better knowledge of their own emotions.
- Identifying the emotions of others.
- Tricks or tools for the regulation of their own emotions.
- Increasing the threshold of tolerance to frustration.
- Prevention of the harmful effects of maladaptive emotions.
- Development of the ability to generate adaptive emotions.
- Development of self-motivation skills.
- Adoption of a positive attitude towards life.
- Development of social and communication skills and/or competences.
- Development of optimal self-esteem.
- Promotion of autonomy.
- Learning to flow and relax.

We have a team of **psychologists and therapists who specialise in working with children and young people and in the field of neuroscience.**

The first term will be used to get to know and identify emotions (emotional awareness), which is the basis for everything to flow afterwards.

From the second term onwards, we will work on the management of these identified emotions through different dynamics adapted to each group, the children develop their abilities in a didactic and fun environment that we adapt according to the dynamics and needs of the group: crafts, drawing, music, more physical games...

We maintain **direct and personalised contact with families and teachers.**

We provide didactic material to be able to work at home and we give practical advice to those families who have doubts or specific needs, so that the families can continue playing, learning and working at home if they wish.

In addition, we also send **extra material** and propose a free visit in which we collect the expectations and particular needs of each one, thus adapting the dynamics to the children.

In short, we provide tools so that children can have a happier childhood and be prepared for the challenges of life.

ESCOLA DE MÚSICA FARRÉ	MUSICAL AWARENESS	16:30 – 18:00	WEDNESDAYS	EI5 – 2.KL.	58€

EI3 - EI4: Musical Initiation

The different basic concepts of music will be incorporated through both theoretical and practical activities, as well as fostering a love of music and culture as a means of expression.

The main objective is **to develop the musical abilities** of each child, working on rhythm, intonation, listening, concentration, creativity, attention and auditory memory through musical activities and games. The aim is also to give them a general knowledge of the use of the voice and the body as a musical instrument, as well as the sound and functioning of the different musical instruments.

And finally, through different auditions and visualisations, the aim is to give them an overview of the history of music from its beginnings to the present day.

EI5 – 2.Kl.: Music Awareness

This activity is the continuation of musical initiation, although students who have not participated in this activity can also join in.

Through different types of musical activities and games, the aim is to develop the musical abilities of each child as they learn the basic concepts of music, such as the difference between sound and noise, the different qualities of sound (pitch, intensity, timbre and duration), musical notes, silences, rhythm, auditory memory, etc.

In addition, an approach to the different musical instruments will be sought through images, videos, listening exercises and rhythmic and melodic dynamics with the same instruments. There will also be visualisations of different musical works so that students can get a general idea of the different applications of music in our daily lives, as well as to continue fostering a love of music and culture as a means of expression.

MUSIC

PROVIDER	ACTIVITY	TIMETABLE	DAYS	AGES	MONTHLY PRICE
ESCOLA DE MÚSICA FARRÉ	MUSICAL LANGUAGE	13:30 – 14:30	-	3.Kl. – 10.Kl.	58€

1.Kl. – 10.Kl.: Musical language

Musical language is one of the fundamental axes to be able to advance more easily in the practical part, such as playing a musical instrument.

Although it is not compulsory in unregulated studies, it is absolutely recommended in order to have greater ease and advance more quickly, having clearer concepts.

It is the most theoretical part of the music, it has the part of the tuning in which we work the voices and the teamwork, making all of us one.

It has 5 different parts:

- The auditory dictation both rhythmic and melodic.
- Music theory.
- Music reading
- Listening
- Tuning

The aim is to facilitate and digest musical concepts that would otherwise probably be more difficult and time-consuming for the pupils to understand, while at the same time helping the instrument class.

It is therefore recommended that students who play an instrument at school also take part in the extracurricular musical language classes, as it will allow them to achieve a more complete learning and greater progress in the practice of the instrument.

The musical language classes will take place in a group on Fridays at midday in 45-minute sessions per week.
